It?s exciting times at Texol with a whole new product range bringing improved performance at lower prices, our customers are happy to tell you the benefits they have experienced.

Texol Products specialise in manufacturing Nitrogen generators, Hydrogen generators, Zero Air, TOC Gas, Air Dryers and CO / CO2 free air generators and supply to the world leaders across a range of industries, from Life Sciences, Research laboratori Laser Cutting, Medical Products

Designing and manufacturing g years, Texol understand how c gas generation can benefit your an off-the-shelf or turnkey gas ge

Product News

The New Generation When Texol designed the GeniSys NitroGenerator, we listened to one person in particular ? You. Now the same philosophy has been applied to the rest of the laboratory nitrogen generator family. From the smallest unit (200cc/min) to the largest (60 Litres/min), the new range has been designed for simplicity of installation, advanced system performance and unsurpassed reliability. New model highlights include the GeniSys NG1-C, a UHP nitrogen generator with an output flow rate of 1 litre per minute and an integral compressor. The GeniSys MicroGeN2 maintains all the key aspects you'd expect of the market's smallest nitrogen generator but with a new ?super-silenced' integral compressor, and the modular LCMS range has been updated to make system setup and expansion ?child's-play'. _____

Texol Gas Generators at Shimadzu?s New Analytical Laboratory

Shimadzu (UK) is the UK division of one of the world?s major companies. Following several years of growth in the UK, Shimadzu h custom-built, state-of-the-art analytical laboratory.

The laboratory will be used for demonstrating equipment to potential purchasers and analysing custom GC, GC-MS, HPLC, LC-MS and spectrophotometry instrumentation, the new equipment requires a r laboratory gases. After seeking specialist advice from local Texol distributor the labratory nitrogen generator, supplying drying-gas for the Shimadzu LC-MS, an HYG600 hydrogen generator, pro gas for the GC2010 gas chromatograph, and a ZA1 zero-air generator supplying hydrocarbon-free ai analysers.

Everbuild Select Texol GA System for Chemical Blanketing

Everbuild Building Products Ltd are a leading UK manufacturer of sealants. Their vast manufacturing facility in Leeds houses chemical powder adhesive production.

When they recently created a custom manufacturing area for a new adhesive product, they turned to T blanketing requirements. Texol?s experienced engineering team were able to advise on the best solut GA40 industrial nitrogen generator providing up to 54 Nm3/hr of blanket gas at 98% purity. E Southerington, comments **"We have found the reliability of the machine excellent and cost sa dramatic. We are highly delighted."**

Texol?s Global Partners

Pure Gas Products K? Germany ? _____

Pure Gas Products, specialises in advanced systems for gas separation, purification and impurity m levels are necessary. We supply complete solutions for industrial and laboratory applications. Universities and other research oriented centres we support high technology markets with our pro centre of Europe, we offer customer training programs, maintenance contracts and planned measurements for Point-Of-Use and large bulk gas systems.
